Introduction

GS Avanti Website User Guide

Welcome to the GS Avanti website administration User Guide. The user manual contains specific information which will enable the user to make full use of the social aspects of the website. It covers basic functions including a description of the General functions, Events, Forum and Groups and uses graphics where possible to help give the user a clear understanding of the process.

This is not a definitive guide to the system and further help can be given by emailing us at gsavanti@modulemedia.co.uk or by calling a member of the Module team on 0207 489 7666 and we will aim to help you where possible.

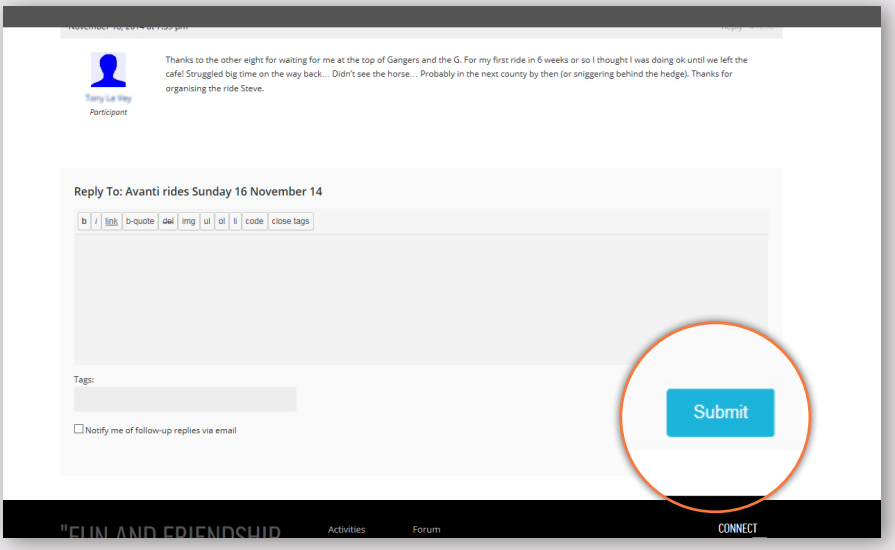
My ride - cycled from home and picked up G1 at the Green. Nice warm up all the way to the top of Cudham. Then.....front tyre blow out at full pace down the steepest part of Brasted Hill. Complete fluke that I stayed up right, but with tyre flapping, braking was going to send me into the ditch.
Damaged front rim and shredded brake pad (oddly). Limped home, saying hello to G3 on way in.

Step 2 Write your reply and click *Submit*.



Thanks to the other eight for waiting for me at the top of Gangers and the G. For my first ride in 6 weeks or so I thought I was doing ok until we left the cafe! Struggled big time on the way back... Didn't see the horse... Probably in the next county by then (or sniggering behind the hedge). Thanks for organising the ride Steve.
